Versatile Evaporative Cooling

The CoolTool family of evaporative air coolers puts real cooling power anywhere you need it. These versatile units come complete with a caster wheel set providing mobility for your special spot cooling needs. Operated by easy control rocker switches, the powerful 115V motor delivers cool air with twin 360° directional grilles. Our exclusive PEBLAR XT cabinet finish will assure you many years of reliable service.

Anywhere Your Need it!

CTV01

CTV11

All 3 Models hold approximately 9.5 gallons of water.

Multi-Purpose Cooler

For Permanent Installation Or Mobile Cooling

A multi-purpose unit in the 4600 CFM* range, the CoolTool (CTV21) can be configured with its adjustable mounting legs, for permanent through-the-wall installation, or with the included casters for mobile cooling. The extra tall design allows you to adjust the air flow to a convenient height and two extra large pads provide optimum air flow and lower maintenance.

* Industry Standard
